

FOCUS 24/7

Our conference theme, **FOCUS 24/7**, recognizes that health and safety is a way of life and a value of our mining organizations in New Mexico. It also emphasizes the importance of employee health and safety, both on and off the job. Further, health and safety is critical to our 24-hour, 7 days per week mining operations and the men and women who keep our mines running. The 2011 conference focuses on topics important to us, not just the hours at our mines, but important to our health and safety always. For health and safety to be our value, we must **FOCUS 24/7**.

The conference is sponsored by the New Mexico mining industry, Mine Safety and Health Administration, and the NM BMS.

Make your reservations early to attend the 2011 New Mexico Mine Health and Safety 4th Annual Conference being held in Socorro, New Mexico, at the Macey Conference Center. Call **575-835-5460** or check out the New Mexico Bureau of Mine Safety website at www.nmminesafety.com for regularly updated information on this excellent New Mexico Mine Health and Safety Annual Conference.

4th Annual New Mexico Mine Health and Safety Conference

Macey Conference Center

FOCUS 24/7

4th Annual New Mexico Mine Health and Safety Conference

May 2, 3, & 4, 2011

2010 NM MINE HEALTH & SAFETY CONFERENCE

The 2010 NM Mine Health and Safety Conference was loaded with power-packed presentations.

Sen. Howie Morales spoke about growing up as a miner's son.

Dr. Ted Boyce, Center for Behavioral Safety, was a keynote speaker.

Janet Bertinuson, Superintendent, National Mine Safety and Health Academy, led a breakout session about Mine Academy Training.

Carl Metzgar, Metzgar & Associates, was a keynote speaker and gave a speech titled "Thinking Outside the Box".

Along with the training courses, there were breakout sessions from H.L. Boling, H.L. Boling and Associates (above with wife, Linda), Matt Schmidt from Capital Safety/DBI-Sala (right), and many others.

All of the training courses and keynote speeches helped participants gain knowledge of the current hot topics relating to the mining industry.

THOUGHTS ON THE 2010 NM MINE HEALTH & SAFETY CONFERENCE FROM FIRST-TIME ATTENDEES

Walter Precourt, Vice President of Environmental Health, Safety, and Security, Mosaic Potash, was a guest speaker and first-time attendee at the 2010 New Mexico Mine Health and Safety Conference. When asked what he thought of the

conference, he said, "I have been to many safety conventions and conferences in various parts of our country and thought the NM Mine Health and Safety Conference was definitely one of the best I have seen. I really enjoyed the format used, the quality of information available, and the professional presentations were excellent. I feel that everyone I met was very open and had their focus on safety topics that were vital to operators and employees alike. I also felt that there was great value having a mix of salaried and hourly personnel at the conference; the interaction brought forth many questions and comments that could be addressed by the groups. I plan on attending next year and would like to bring my wife and spend a little more time in New Mexico. I enjoyed the atmosphere of having the conference at the New Mexico Institute of Mining and Technology and in Socorro with its historic mining background."

"This was my first Health & Safety Conference and it was everything I expected and more. I enjoyed going to the different classes and thought the instructors were outstanding and

professional. They made it so you had fun while you learned different things about mining safety. It was great to meet people from around the state that share the same safety culture that we, at our mine, try to live by every day. I am proud to work in an industry where everyone is on the same page, "ZERO HARM" to People, Environment, and Equipment. I definitely hope to attend the conference next year and recommend it to everyone and anyone in the industry." — Lisa Kennedy, Miner, San Juan Mine 1
